Profile

Highly motivated and skill-oriented Computer Science student, passionate about leveraging Science and Technology to drive innovation and cultivate an entrepreneurial mindset along with passionate interest to become a pilot and great interest in aviation too. Possessing strong analytical skills, I am eager to contribute to strategic decision-making. I demonstrate a proven ability to collaborate effectively within diverse teams and bring Success, coupled with exceptional learning agility and clear communication skills. My technical foundation includes learning proficiency in media softwares, MySQL, Python, MS Office suite database concepts, and data structures. Furthermore, I have had the pleasure of engaging with diverse cultures, fostering a pan-world understanding that I bring with enthusiasm to collaborative and innovate withing global context. With a foundational understanding of the Intelligent Enterprise, Media, E-Media resources, AI and its underlying technologies, I exhibit a strong aptitude for solution innovation. While developing my technical proficiency, I offer a blend of creative ideation, basic project management, and fundamental computer skills, aiming to contribute to scalable and repeatable solutions that support sales strategies. I am committed to rapidly acquiring new skills and applying my overall potential within the organization, contributing meaningfully to its purpose-driven mission.

Projects

CS Experimentations

2025-Progressing
github.com/nibrashassan 

- Created Htmls, Websites
- Tools Used: Html, CSS, JavaScript

Smartphone Photography as a Hobby

2018-Progressing
nhphotography.g-photos 

- With great interest in photography I tag my interest as NH PHOTOGRAPHY. Having keen eye for detail and a vision to create images that resonate on a personal level, I am currently cultivating photographs using normal Smartphone Camera, and it is because capturing moments happens almost at any time and most of the time the Smartphone is with us – and I am delighted to share my visual narrative with you.
- Tools Used: Smartphone cam, Snapseed, Photoshop

Youtube Video Production

2020
Yt-MangathaBulb 

- I created a English-Tamil parody song video from scratch with my friends, one was the singer and lyricist and one helped me with my slow system processor and together tossed it onto YouTube. We were on a mission to tickle the funny bones of our classmates who were going absolutely bonkers with online classes during the lockdown. Think of it as a virtual dose of silliness to chase away those lockdown blues. We had a blast making it. This was the start of exploring Computer and Applications at 15 which added a skill of D.I.Y too.
- Tools Used: Filmora

Skills

Digital: Html, SQL, Python, MS Office Suite, Videography, Photography, Video/Photo Editing, Production Sound Mixer

Languages: English, German, Tamil, Hindi, Urdu, Kannada, Telugu, Arabic(Read)
